Subject: Field Work Activities - Week of September 10 2018

Hi Carolyn

I wanted to let you know that since we still have not heard back from anyone from the USEPA today, we likely will need to push back the originally proposed field work schedule 1 day, assuming the USEPA issues Conditional Approval of both the Offsite Groundwater Monitoring Well Redevelopment and Sampling Work Plan and Sewer Gas Vapor Intrusion Investigation Work Plan tomorrow. Most of these activities require us to have traffic control measures so we need to plan that in advance and it is too late to schedule anything for tomorrow.

Thanks and have a good night.

Sincerely,

Bradley E. Gentry, LPG
